Operations

Trusted across Civilian, Defense,
Financial, and Law Enforcement
environments

We offer skilled resources; proven business and technical capability; expert financial and cost management services; and disciplined systems life cycle management. Our teams analyze needs, successfully design new (or upgrade existing) systems, and effectively deploy, integrate, and maintain solutions. We maintain a reputation as thought leaders and trusted advisors, partnering with our customers to understand their unique needs, defining success criteria, and applying our knowledge and experience to implement business and technology solutions that bring value to business or enhance technology utilization.

LS3 is the first ever small business that was government certified as an HSPD-12 Systems Integrator, listed on GSA Schedule 70 Special Item Number (SIN) 132-62 (now 541419PIV under GSA MAS), and an Identity and Access Management Professional Services on 132-60F (now 541519ICAM).

Our unique qualifications as a *true technology integrator* permit us to master some of the most complicated implementations in government today.

We offer Exceptional past performance ratings from our current and past customers, recorded in the government CPARS system. We feel that this demonstrates our commitment, capability, and the difference LS3 brings to customer support needs.

Why LS3

- Prime contractor operating enterprise-scale federal security programs
- Full lifecycle delivery: Architecture → Integration → Operations → Modernization
- Proven low-risk transition from legacy to Zero Trust and highly secure environments (both physical and logical)
- 24x7x365 mission-critical system sustainment

Breadth of Federal Customer Support

Extensive Enterprise Experience

Demonstrated Competencies

- **Systems Integration and Solution Engineering**
 - Enterprise Identity and Access Management (FICAM)
 - HSPD-12 Solution Integration & Management
 - DoD and Federal Public Key Infrastructure (PKI)
 - Enterprise Application Management, Integration, and Customization Services
- **Physical Security Services**
 - Physical Access Control System (PACS) Integration
 - Physical Security Consultation
- **Program Support**
 - Program Office Management
 - Program Office Subject Matter Expertise Support
 - Financial Management and Certified Cost Analysis and Estimation Services

Sample Programs and Customers

- **US Department of Agriculture**
 - USDA HSPD-12/ePACS Program (2018 – Present)
 - USDA FICAM Program Support (2016 – 2021)
 - USDA Physical Security Support (2013 – 2018)
- **U.S. Dept. of Education**
 - Enterprise FICAM Program Support (2016 – 2023)
- **General Services Administration**
 - GSA Identity, Credential, and Access Management Program Support (2016 – 2021)
- **Dept. of Defense/DISA (2008 – 2016)**
 - DISA ACAT Level 1 Financial/Cost Center Management Services
- **Homeland Security/FEMA (2010 – 2014)**
 - Federal Emergency Response Official National Repository
 - Federal Risk Management Information Exchange and Management Portal
- **Veterans Affairs (2006 – 2013)**
 - Enterprise Identity and Access Management Program Management and Systems Integration
 - HSPD-12 Program Management, System Integration, and Program Management Office SME Support Services

Core Capabilities Experience

Contract Vehicle/Order#	GS-35F-0134V Order # 12314218F0206
Contract/Project Name	HSPD-12 and ePACS Program Support
Contract Value	\$15,465,887.15
Department or Agency	U.S. Department of Agriculture
Period of Performance	02/11/2019 – 02/10/2024
Project Description	<p>The contractor will provide program, operations, technical, and administrative support across a diverse set of program and technical activities in support of the USDA’s ICAM Credential (i.e., HSPD-12) and electronic Physical Access Control (ePACS) programs. Support shall include:</p> <ul style="list-style-type: none"> • Consistently assess industry best practices and industry-leading solutions and present them to the program for adoption and/or acceptance, and then integrate those that are approved into program operations. • Federal Agency coordination for management, technical, and financial billing matters • Budget management and reconciliation and coordination on OCFO payments • Multi-tier Help Desk Operations for each Program • Operational Sustainment and Maintenance of the Department’s technical solutions in a robust Cloud • Cloud Service Management with USDA’s selected provider(s) • Management of Managed Service Offerings (MSO) from the GSA • Providing Subject Matter Expertise in Identity, Credential, & Access Management • Providing capabilities to address all architecture, engineering, integration, and operations management needs for USDA’s Enterprise scope solutions • IT Security management to ensure compliance and safeguard the ATOs for USDA’s enterprise services • Enterprise reporting, communications, and coordination on all manner of management and technical needs

CPARS	Yes

Core Capabilities Experience

Contract /Order#	GS-35F-0134V Order # 12314424F0068
Contract Name	HSPD-12 and ePACS Program Support
Contract Value	\$18,934,225.39
Department	U.S. Department of Agriculture
Dates	02/11/2014 – Ongoing 5 year award
Project Description	<ul style="list-style-type: none"> • Prime contractor supporting USDA’s Enterprise Physical Access Control System (ePACS) across 800+ facilities nationwide, managing more than 9,000 access control points and thousands of IP cameras. • Engineer, operate, and sustain a federated Lenel OnGuard enterprise architecture integrated with USDA ICAM, PKI, and HSPD-12 credentialing systems. • Enforce FIPS 201-3, HSPD-12, and FICAM compliance through PIV-based authentication, real-time certificate validation (OCSP/CRL), and centralized credential lifecycle integration. • Provide 24x7x365 Tier I–IV operational support, including service desk, engineering support, incident response, and DevSecOps remediation, and perform monthly Windows/Linux patching, firmware updates, and vulnerability mitigation in alignment with DHS CDM, FISMA, TIC 3.0, and Zero Trust requirements. • Maintain ePACS as a designated High Value Asset (HVA) with continuous monitoring, SIEM integration (Splunk), and Security Operations Center (SOC) coordination. • Modernize legacy PACS environments through integration of HID PIVClass readers, networked controllers, and enterprise CM pipelines; manage cradle-to-grave inventory management concerns for the USDA Enterprise Physical Security Program. • Perform Site/Vulnerability Assessments, Deliver CADs, and manage construction and enhancement plans that deliver fully integrated physical security solutions throughout the enterprise, including all manner of video surveillance systems, PACS, centralized IT monitoring, event correlation, and more. • Manage hybrid infrastructure deployments across on-premise data centers and AWS GovCloud/Azure environments, ensuring redundancy and disaster recovery readiness. • Deliver cost modeling, SLA tracking, reporting dashboards, audit support, and executive briefings to USDA OCIO leadership.

Corporate Highlights and Fact Sheet

Technical Support

- Decades of experience in building and operationally supporting enterprise solutions, and for more than a dozen Federal Departments/Agencies
- One of the first ever to successfully implement an enterprise-wide Government ICAM solution
- Successfully managed the manufacture and maintenance of millions of PIV, PIV-I, and Facility Access Cards in government
- Direct experience in managing every prevalent Card Management System platform in government
- Direct experience in managing Federal and DoD PKI Programs and technical solutions
- Fully qualified and certified in Physical Access Control System implementation and integration, with experience implementing enterprise scope solutions
- Actively manage the Logical and Physical Access Control System implementation strategies and development needs for multiple Federal customers
- CMMI Level 3 Certified development processes and Quality processes based on ISO 9001 standards

Business Support

- Highly experience Program Management Office support organization
- Distinct experience in HSPD-12 and FICAM PMOs for multiple Departments and Agencies
- Extensive capability in supporting financial management, government acquisition processes, budget reporting, and enterprise CPIC processes.
- Directly manage Department of Defense ACAT Level 1 Programs (i.e., programs that manage more than 8 Billion in funds annually)
- Certified Cost Analysis and Estimation personnel with direct experience in Lifecycle Cost Estimation (LCCE) and providing Cost Model support and services
- Robust Security Accreditation capabilities that actively address the review and validation processes for FISMA compliance
- Extensive experience with independent verification and validation support needs and program/system testing processes
